## Summary

---

Backend Software Engineer with production experience building scalable microservices and LLM-powered healthcare workflows on Azure. Skilled in ASP.NET Core, Azure OpenAI integration, RAG pipelines, secure RBAC authentication, and CI/CD automation. Experienced in deploying and maintaining AI-powered systems in real-world production environments.

## Technical Skills

---

**Languages:** C#, Python, JavaScript, Java, C++

**Backend:** ASP.NET Core, REST APIs, Microservices, CQRS, SOLID Principles, Blazor, React.js

**AI / LLM:** Azure OpenAI, Prompt Engineering, RAG (FAISS), LLM Integration, AI Workflow Automation

**Cloud & DevOps:** Azure (App Services, Container Apps, Service Bus, Event Grid, Redis, API Management, Entra ID, SQL), Docker, GitHub Actions, CI/CD Pipelines

**Databases & Tools:** Azure SQL, Relational DB Design, Query Optimization, Git, Agile, MudBlazor

## Work Experience

---

### Junior Developer-Full Stack

NeuraNx.ai Private Limited

Apr 2026 – Present

Chennai, India

- Modernized legacy ASP.NET MVC application by migrating to Angular frontend and .NET 8 backend, improving performance and scalability.

### Software Engineer I

Teya Health Pvt Ltd

Jan 2025 – March 2026

Remote

- Integrated **Azure OpenAI** to generate structured SOAP notes within a production EHR system; engineered prompt templates and validation layers ensuring consistent clinical documentation output.
- Built AI workflows combining patient data with RBAC, implementing retry logic and monitoring to maintain production AI system reliability.
- Designed and developed scalable healthcare microservices using ASP.NET Core, applying CQRS and clean architecture principles for extensible, testable backend services.
- Engineered secure authentication and policy-based authorization using **Azure Entra ID**, enforcing strict role isolation for doctors, patients, and administrators.
- Developed medical claims processing workflows supporting enterprise billing systems (institutional and professional claims CRUD).
- Optimized **CI/CD pipelines** using GitHub Actions across Dev, QA, and Production environments — reducing deployment cycles by ~30%.
- Implemented dynamic theming and UI customization using **MudBlazor** to maintain consistent enterprise UI standards across platforms.
- Designed organization, role, and user configuration modules across EHR and billing systems, supporting **multi-tenant** and enterprise-scale workflows.
- Mentored junior developers on debugging and clean coding practices; led daily code reviews enforcing team-wide quality standards.

### Software Developer Intern

Webnet Technologies

May 2024 – Jul 2024

Patna, India

- Built and maintained client-facing web apps using ASP.NET MVC and C#; gathered requirements on-site, authored SRS documentation, and supported Azure-based cloud deployments.

### Java Developer Intern

CETPA Infotech

Aug 2024 – Oct 2024

Noida, India

- Developed REST-based backend modules using Core Java and OOP principles; improved application performance through debugging and code refactoring.

### Game Developer Intern

Akiyam Solutions Pvt. Ltd.

Jan 2023 – Jul 2023

Remote

- Designed game levels and mechanics in Unreal Engine 5.1; optimized assets and collaborated with designers to refine interactive environments.

## Projects

---

- AI Clinical Document Assistant***Python, FastAPI, FAISS, Azure OpenAI, Docker*
- Built a **RAG-based** system for structured medical documentation generation using FAISS for embedding storage and semantic retrieval.
  - Containerized and deployed using Docker and Azure Container Services; integrated Azure OpenAI for LLM-driven document generation.

- Estate Marketplace***MERN Stack, Firebase, JWT*
- Full-stack marketplace with secure JWT authentication, modular REST APIs, and production cloud deployment.

- Employee Management System***ASP.NET MVC, Azure DevOps*
- Cloud-hosted enterprise system with automated CI/CD pipelines, RBAC, and role-based secure authentication.

## Education

---

- Amity University***2021 – 2025*  
*Bachelor of Technology in Computer Science Engineering**CGPA: 8.26 / 10.0*

## Certifications & Achievements

---

- Career Essentials in Software Development — Microsoft & LinkedIn
- CodeChef Skill Test (C++) — 93% Score — Merit Recognition — Young Turks National Technical Program
